Executive Summary

Detailed program status reports are posted to the Arkansas Geographic Information Office website once every month. The State Land Information Board and other major stake-holders are on an email distribution list that will contain a quick summary of the program status and a link to the detailed report on the website. For additional information, visit the County Assessors Mapping Program (CAMP) website at:

http://www.gis.state.ar.us/AGIO/CAMP/status.asp

Below is a list of County Assessors Mapping Program (CAMP) milestones:
- 47 counties have indicated they intend to join the CAMP program
- 40 of these Counties have returned a signed Memorandum Of Understanding (MOU) confirming their spot in the program.

Upcoming Events and Tasks

Here is an overview of some of the upcoming events for the CAMP program:
- AGIO is developing State Cadastral Standards
- With the various Counties underway AGIO has been requesting the point files and CAMA database from these Counties and verifying a sound link between the two databases.
- AGIO and AACD plan on meeting with CAMA providers to discuss standardization of CAMA database.

The following is a list of meetings that have taken place over the last month:
- *January 7-9* – Traveled to Charleston, SC for Cadastral Sub-committee meeting.
- *January 15* – Met with Page Kutait from Assessor Coordination Division about setting up a meeting with CAMA providers.
- *January 16* – Met with Washington Co. Officials and ESRI to discuss Washington Co. being part of an ESRI pilot program to test the new Geodatabase from ESRI.
- *January 21* – Met with Van Buren Co. Officials to discuss CAMP program and it's benefits.
- *January 22-24* – CAMP training for the second 10 Counties.

Status Overview

   The second group of 10 counties have been through the training and are getting started with Phase I. Things are moving along well with the initial 10 Counties, some having as much as 20% of the county completed for Phase I. We are continuing to have more counties sign on for CAMP. After my trip to Charleston, SC for the Cadastral Sub-Committee meeting, AGIO is closer in the development of State Cadastral Standards for Phase II.
